### Make a mark in the life of your child or an EO member's child.

Entrepreneurs' Organization Youth Exchange (EOYX) is a MyEO Premier Group that facilitates multi-cultural experiences for children of EO members. Host an EO member's child or create an exchange with fellow EO member families.

### Opportunities are endless.

Members and their children ages 10-25 further personalize their EO experience by:

- \* Hosting exchanges with fellow EO member families from around the world
- \* Offering internships or work experience to EO members' children
- \* Learning from a business leader at a "Meet the CEO" event
- \* Forming life-long relationships within our global community
- \* ...and much more!

The program planted a seed in my head that this could be an opportunity for my kids to get exposure to the entrepreneurial mindset and spirit coming through other peers... and help them create their own view of entrepreneurship

CEO of Lunchkins

Dear fellow EO members,

I'm pleased to tell you more about new developments of MyEO Youth Exchange (YX) – a MyEO experience designed to **engage EO-member children through national and international opportunities.**

The global EO member network is vast, and we can open opportunities to our youth by leveraging **far-reaching connections within a secure community.** This initiative encourages our youth to **seize opportunities** and create **extraordinary experiences**, and as the program grows we have added new opportunities like our "Meet the CEO" events.

The MyEO Youth Exchange program includes the chance to:

- ★ Welcome children of fellow EO members to stay with your family
- ★ Post internship offers in your companies
- ★ Create 'Meet the CEO' events to allow children to learn about an industry directly from a business leader
- ★ Encourage your children to discover the world
- ★ Join our team as a MyEO YX champion for your chapter

I am looking forward to your support in continuing to grow this program and celebrate the impact it has on the **next generation of EOers.**

We're looking forward to making your MyEO YX opportunity happen!

I was at a DC high school working with a group of nine robotics engineering students to develop a set of three mechatronic toys. It was a cool internship because I got to go through the entire design, manufacturing and development process. ”

“

The power and reach of the EO network remains a critical resource to the entrepreneur; so it was extremely gratifying to help another EO member extend these benefits to his son who worked as a three week intern for Gazelles. ”
